## PLANS, SCHEDULING AND DOCUMENTATION

1. **Objective.** As prescribed in AFI 38-201, Air Force Manpower Determinant (AFMD) System, formerly designated as AFR 8-10, this ANGMS quantifies the full-time manpower requirement to accomplish the tasks described in the work center description (WCD) for varying levels of workload volume.

2. **Authority.** ANG Regulation 66-14 contains Air National Guard policy and procedural guidance for the Plans, Scheduling and Documentation work center. This ANGMS has been developed in accordance with procedures contained in AFPAM 38-208, Air Force Management Engineering Program (MEP) Processes, formerly AFR 25-5. This ANGMS is a result of a functional review.

3. **Applicability.** This standard applies to all flying units of the Air National Guard except 162 FG, Tucson AZ, 184 FG, Wichita KS, 114 FS, Klamath Falls OR, and 124 RG, Boise ID. This standard applies to peacetime operations only.

4. **Standard Data:**

- a. Classification. Type II.
- b. Approval Date. 30 Oct 90.
- c. Man-hour Data Source. Operational Audit (historical record and technical estimate technique).
- d. Standard Man-hour Equation.  $Y = -32.59 + 1.549X$ .
- e. Workload Factors (WLFs).
  - (1) Title. A Programmed Flying Hour.
  - (2) Definition. The average monthly programmed flying hours.
  - (3) Source of Count. USAF Program Document (PD), Volume II maintained by NGB/FM.

5. **Application Instructions.**

- a. The valid man-hour range for this ANGMS is 311.77 through 912.52.
- b. The AF Form 1113, Standard Manpower Table, is an aggregate of total manpower by specialty title and AFSC. The application instructions are as follows:
  - (1) Obtain the most current WLF value as instructed in paragraph 4.
  - (2) Substitute this value into the man-hour equation for X.
  - (3) Divide the total man-hours (Y) by the current Man-hour Availability Factor (MAF) to determine total requirements. NOTE: To determine whole manpower requirements apply ANG standard application procedures using the Fractional Manpower Range Table.
  - (4) Find the column in which the number of required authorizations falls, then read up and across the column to determine total manpower by AFSC.

6. **Statement of Conditions.** This work center's normal hours of operation are 8 hours a day, 5 days a week. There are no other standard of living constraints which affect the daily operation of this work center.
